Ref: Indian River Memorial Hospital Project With Excell Caulking & Waterproofing.

It has been a pleasure to work with the Excell team during the recent painting and caulking of the hospital's main facility. Excell's project management was excellent, they kept me informed weekly of project schedules and responded quickly to any concerns. The work was performed in a professional and timely manner. I would highly recommend Excell Caulking and Waterproofing for consideration of future work at our facility.

Sincerely,

Robert Michael, Manager
